

Draft Meeting Notes

U. S. Steel Canada Hamilton Works Community Liaison Committee (CLC)

26 May 2016, 5:30pm – 7:30pm, Hamilton Discovery Centre

CLC Members In Attendance:

Marilyn Baxter, Peter Ipema, Lynda Lukasik, John Sanges, Martha Allan, Kristin O'Connor

Other Attendees:

Trevor Harris (U. S. Steel Canada)

Andrew Sebestyen (U. S. Steel Canada)

Welcome and Safety Contact

The safety evacuation procedure was reviewed for all in attendance in case of an emergency.

Review and Approval of Agenda

The committee accepted them as presented.

Review and Approval of Minutes of 27 October 2015

Minutes from 27 October 2015 will be reviewed but were accepted as presented.

Ontario Regulation 419

As a follow-up to a question raised at the October 27, 2015 meeting, regarding Site Specific Standards that exceed a URT, the Committee was advised that an expert in the regulation was not available for this meeting to provide an explanation. This question will be followed up at a future CLC meeting.

Performance under O.Reg. 419/05 Site Specific Standard Order - Particulates

Andy Sebestyen provided a summary of the performance of the Hamilton Works coke battery operations under the Site-Specific Standard Order for particulates.

Site Specific Standard – Benzene and B[a]P

Hamilton Works received Site-Specific Standards for benzene and benzo[a]pyrene on May 18, 2016.

Environmental Updates

Andy Sebestyen provided a summary of the Ambient Air Pollution Database developed by the World Health Organization. These were compared to measurements taken at the Hamilton Air Monitoring Network (HAMN) stations.

Community Concerns

No concerns were raised at this time.

In-camera Discussion

Members did not require an in-camera session.
