2. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

Stelco Holdings' unaudited interim condensed consolidated financial statements (Consolidated Financial Statements) have been prepared by management in accordance with International Accounting Standard (IAS) 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board (IASB). The consolidated financial statements comprise the financial statements of Stelco Holdings and its subsidiaries (collectively, the Company). Under International Financial Reporting Standards (IFRS), additional disclosures are required in the annual financial statements and therefore, these Consolidated Financial Statements and accompanying notes should be read in conjunction with the notes to the Company's audited consolidated financial statements for the year ended December 31, 2018 (2018 Annual Financial Statements).

These Consolidated Financial Statements have been prepared using consistent accounting policies and methods used in the preparation of the Company's 2018 Annual Financial Statements, with the exception of the accounting policies impacted by the adoption of new standards and interpretations effective January 1, 2019, as noted below. Certain comparative information has been reclassified to conform to the current period's presentation.

These Consolidated Financial Statements were authorized for issue in accordance with a resolution of the Board of Directors of Stelco Holdings on May 1, 2019.

Changes in accounting policies

Stelco Holdings has adopted each of the standards and policies noted below on January 1, 2019:

a) IFRS 16, *Leases* (IFRS 16)

IFRS 16 introduces a single, on-balance sheet accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are optional exemptions for short-term leases and leases of low value items. Lessor accounting remains substantially unchanged, such that lessors continue to classify leases as finance or operating leases. IFRS 16 replaces the following: IAS 17, *Leases*; IFRIC 4, *Determining Whether an Arrangement Contains a Lease* (IFRIC 4); SIC-15, *Operating Leases - Incentives*; and SIC-27, *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*.

The Company adopted IFRS 16 using the modified retrospective application of comparative information, by applying a single discount rate for a portfolio of leases with reasonably similar characteristics and excluding short-term and low-value leases.

On January 1, 2019, in connection with the adoption of IFRS 16, the Company recorded a $9 million increase to property, plant and equipment and other liabilities on the Consolidated Balance Sheet, respectively, relating to certain equipment leases that were previously classified as operating leases and disclosed as off-balance sheet commitments as at December 31, 2018. Refer to notes 3 and 5, respectively, for further details on the impact of the transition to IFRS 16 on property, plant and equipment, and other liabilities.

b) IFRIC 23, *Uncertainty over Income Tax Treatments* (IFRIC 23)

In June 2017, the IASB issued IFRIC 23 to clarify the accounting for uncertainties in income taxes. The interpretation provides guidance and clarifies the application of the recognition and measurement criteria in IAS 12, *Income Taxes*, when there is uncertainty over income tax treatments. The adoption of this standard did not have an impact on the Consolidated Financial Statements.

This financial liability was initially recorded at its fair value using a discounted cash flow analysis and subsequently accounted for at amortized cost using the effective interest method. The determination of fair value at initial recognition involved making various assumptions, including the determination of the expected cash flows and discount rate. Estimates of expected cash flows are revisited at the end of each Consolidated Balance Sheet date to determine amortized cost. Due to the nature of the underlying assumptions and its long-term nature, the employee benefit commitment is highly sensitive to changes in these assumptions. Refer to note 13 for remeasurement of the employee benefit commitment recorded in finance costs on the Consolidated Statement of Income, as a result of changes in estimates and assumptions during the three months ended March 31, 2019, related to this obligation.

On May 1, 2019, Stelco Holdings' Board of Directors declared a dividend of $0.10 per common share, payable on May 31, 2019 to shareholders of record as of May 27, 2019.

Normal Course Issuer Bid

During the three month period ended March 31, 2019, the Company canceled 56,600 common shares (previously classified as treasury shares at December 31, 2018) at a weighted average price of $15.24 per common share for a total cost of $0.9 million. The excess of the purchase price over the carrying amount of the common shares purchased, was recorded as a reduction to retained earnings amounting to $0.5 million.

9. SHARE-BASED COMPENSATION

Long-term incentive plan

During 2018, Stelco Holdings established an amended and restated long-term incentive plan (LTIP), which was approved by common shareholders at the annual general and special meeting of common shareholders held on June 28, 2018. The LTIP was designed to promote the alignment of senior management, employees and consultants of the Company with shareholder interests and the creation of sustainable shareholder value, and facilitate recruitment, motivation and retention of executives and key talent.

Under the terms of the LTIP, the maximum number of common shares that may be subject to awards under the LTIP or any other share-based compensation arrangements adopted by Stelco Holdings is 2.5 million common shares. No participant may be granted, in any calendar year, share-based awards with respect to more than 5% of the issued and outstanding common shares of Stelco Holdings.

Restricted Share Units

Under the terms of the LTIP, Restricted Share Units (RSU) may be issued to eligible participants as may be designated by Stelco Holdings' Board of Directors from time-to-time. The Company is obligated to pay in cash, an amount equal to the number of RSUs multiplied by the fair market value of one common share of the Company on the distribution date to the participant in respect of vested RSUs within 30 days of the vesting date. Dividends declared on common shares accrue to the RSU holder in the form of additional RSUs.

On December 31, 2018, 34,528 RSUs were granted to certain employees, including to members of the Company's Executive Senior Leadership Team (ESLT), with a grant date fair value of $15.05 per RSU. These RSUs are cash-settled awards with one-third of the RSUs vesting on the first vesting date, February 21, 2019, and the remaining two-thirds vesting on the first and second anniversary, respectively, of the initial vesting date.

(In millions of Canadian dollars, tabular amounts in millions, except where otherwise noted) (Unaudited)

On February 22, 2019, 58,167 RSUs were granted to certain employees, including to members of the Company's ESLT, with a grant date fair value of $18.39 per RSU. These RSUs are cash-settled awards with the RSUs vesting as to one-third of the total grant amount on each of the first three anniversaries of the grant date.

(RSUs in total)	
Balance, as at January 1, 2019	34,528
Granted	63,446
Cash-settled	(17,626)
Balance, as at March 31, 2019	**80,348**

The cost of these share-based payments is measured at fair value and expensed over the vesting period with the recognition of a corresponding liability recorded in other liabilities on the Consolidated Balance Sheets. The liability is remeasured at fair value at each reporting period date with the changes in fair value recorded in the Consolidated Statements of Income and Comprehensive Income.

Share options

Under the terms of the LTIP, share options (Options) may be issued to eligible participants as may be designated by the Board of Directors from time to time. Options are share-based payments measured at fair value (excluding the effect of non-market-based vesting conditions) at the date of grant and are expensed on a graded vesting basis over the vesting period, based on Stelco Holdings' estimate of the Options that will eventually vest and adjusted for the effect of non -market-based vesting conditions. Vested Options may be exercised to purchase common shares of Stelco Holdings or surrendered for cash at the election of the Option holder. Given the alternative settlement options at the election of the participants, the Company has accounted for these Options as cash-settled awards which are remeasured at fair value at each reporting period date with the changes in fair value recorded in the Consolidated Statements of Income and Comprehensive Income.

In accordance with the terms of the LTIP, the exercise price of each Option may not be less than the fair market value of Stelco Holdings common shares on the grant date. Options are granted at the discretion of the Board of Directors. Other terms and conditions of the LTIP include a maximum 7-year life and immediate vesting under certain change of control provisions. The consideration paid by employees for the purchase of common shares is added to share capital.

On January 10, 2019, 1,500,000 Options were granted and issued to certain members of the ESLT with an exercise price of $14.59. Two-thirds of the Options vest on January 10, 2020, with the remaining one-third vesting on January 10, 2021.

The Company accounts for Options by estimating the fair value of each tranche of an award at the grant date and subsequently recognizing the compensation expense over the vesting period. The Black-Scholes option-pricing model assumptions used to estimate the fair value of the Options at the grant date were as follows:

Options granted (in total)		1,500,000
Option exercise price (per Option)	$	14.59
Expected risk-free interest rate		1.9%
Expected distribution yield		2.7%
Expected unit price volatility		38%
Expected Option life (years)		4.5
Fair value of Options granted (per Option)	$	4.36

For the three month period ended March 31, 2019, the Company recorded an expense of $2 million in selling, general and administrative expenses on the Consolidated Statements of Income and Comprehensive Income related to the vesting of these share options. The estimated fair value of the Options outstanding as at March 31, 2019, is $5.32 per share option.

Deferred share unit plan

Stelco Holdings has a deferred share unit (DSU) plan for its independent members of its Board of Directors which provides that each independent director receives, on each date that the director retainer fees are payable, an amount of DSUs which the director has elected relative to their respective fee entitlement. Each independent director can elect annually to receive a specified percentage of their respective direct retainer fee entitlement as DSUs. The number of DSUs granted to an independent director is based on the closing price of the common shares of Stelco Holdings on the TSX on the grant date. Dividends declared on common shares accrue to the DSU holder in the form of additional DSUs. At such time as an independent director ceases to be a director of the Company, Stelco Holdings will make a cash payment to the applicable director in respect of the total amount of the issued and outstanding DSUs held by such director based on the fair market value of the common shares of Stelco Holdings at such time. As of March 31, 2019, there were 30,502 DSUs outstanding, for which the Company recognized a liability of $0.5 million.

18. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following table provides the carrying values and fair values of financial instruments:

	March 31, 2019		December 31, 2018	
As at	**Carrying Value**	**Fair Value**	Carrying Value	Fair Value
Financial assets:				
Cash and cash equivalents	**$ 285**	**$ 285**	$ 438	$ 438
Restricted cash	**9**	**9**	8	8
Trade and other receivables	**265**	**265**	252	252
Financial liabilities:				
Trade and other payables	**$ 285**	**$ 285**	$ 436	$ 436
Other liabilities	**58**	**58**	53	53
Obligations to independent employee trusts:				
Employee benefit commitment	**473**	**468**	478	469
Mortgage payable	**113**	**109**	113	107

The fair values of cash and cash equivalents, restricted cash, trade and other receivables, trade and other payables as well as interest-bearing loans and borrowings approximate their carrying amount largely due to the short-term maturities of these instruments. The fair value of the lease liability is estimated by discounting the future contractual cash flows at the cost of borrowing to the Company, which approximates its carrying value.

The fair value of the mortgage payable is an estimate made at a specific point in time, based on relevant market information. This estimate is based on quoted market prices for the same or similar issues or on the current rates offered to the Company for similar financial instruments subject to similar risk and maturities. Fair value measurements of these instruments were estimated using Level 2 inputs.

The fair value of the employee benefit commitment is estimated based on a discounted cash flow analysis of expected cash flows, including fixed and variable payments, to be paid in future periods to the pension and OPEB trusts. The contractually fixed payments are discounted using a rate that is reflective of the Company's cost of borrowing and similar senior unsecured debt for companies in the same sector that are of a similar size. The estimated variable payments are discounted using a rate consistent with a market rate of return of the Company. Fair value measurements of these instruments were estimated using Level 2 inputs.

The Company has no level 3 financial instruments. There were no transfers between level 1, level 2 or level 3 during the three months ended March 31, 2019.

To maintain or adjust the capital structure, the Company may from time to time adjust its capital spending to manage its current and projected debt levels.
