Re: California Proposition 65 Statement

To whom it may concern,

Stelco, Inc. (Stelco) provides information concerning California Proposition 65 chemicals in Safety Data Sheets (SDS) provided to customers purchasing our steel products. The statement on the SDS reads as follows:

"Stelco products may possibly contain trace quantities (generally much less than 0.1%) of metallic elements known to the State of California to cause cancer or reproductive toxicity. These include chromium and nickel."

Attached please find an SDS for each product(s) supplied to your company. Stelco will continue to monitor all revisions of California Proposition 65 and will provide you with information, as necessary, after any future revision.

If you have any further questions please contact your Stelco Customer Technical Services Representative.

Sincerely,

A handwritten signature in black ink that reads "A. Sebestyen". The signature is written in a cursive, slightly slanted style.

Andrew Sebestyen
Director,
Environmental Affairs
Stelco, Inc.
