Welcome

Review and Approval of Agenda

The committee accepted them as presented.

Review and Approval of Minutes of 13 February 2020

Minutes from the 13 February meeting were reviewed and were accepted as presented.

Trevor provided a summary of the early action related to COVID-19 that Stelco has implemented to protect our co-workers and their families.

Performance under O.Reg. 419/05 Site Specific Standard Order - Particulates

Katie provided a summary of the performance of the Hamilton Works coke battery operations for Q1 2020 under the Site-Specific Standard Order for particulates.

Paul provided a summary of how the Ministry of Environment's Hamilton District Office is operating under the current COVID-19 situation.

Community Feedback

Some CLC members expressed appreciation for arranging this condensed meeting virtually, allowing for a timely update from Stelco.

Cathy asked whether there were any updates related to development plans at the Hamilton site. Trevor indicated that there were no updates at this time.
