## **Review and Approval of Agenda**

The committee accepted the agenda as presented.

## **Review and Approval of Minutes of 4 November 2020**

Minutes from the November 4<sup>th</sup>, 2020 meeting will be circulated following the meeting for review and approval.

## **Performance under O. Reg. 419/05 Site Specific Standard Order - Particulates**

Katie provided a summary of the performance of the Lake Erie Works coke battery operations under the Site-Specific Standard Order for particulates from October 1 to December 31, 2020. Review of community complaints (0) related to the Site-Specific Standard Order. The Ministry of Environment, Conservation and Parks commented on the extension of the Site-Specific Standards for the integrated iron and steelmaking sector. Extensions have been approved for LEW's Site-Specific Standards for Suspended Particulate Matter and Benzene. The Site-Specific Standard for Benzo(a)Pyrene is still in review. Taylor also indicated that an air monitoring unit is to be installed by the MECP in Spring 2021 in the Elmcrest area.

## **Seasonal Dust Management**

Petar described the seasonal changes to Lake Erie Works' dust management practices. Highlights included the automatic sprinkler systems used in the summer and the sealant used to provide season-long coverage during the winter months.

## **Community Feedback**

Community members inquired about the differences between the Site-Specific Standards and the O. Reg 419 Schedule 4 standards. One CLC member also shared an observation about road dust
