Review and Approval of Minutes of 13 May 2020

Minutes from the August 12nd 2020 meeting were reviewed and accepted as presented.

Performance under O. Reg. 419/05 Site Specific Standard Order - Particulates

Katie provided a summary of the performance of the Lake Erie Works coke battery operations under the Site-Specific Standard Order for particulates from July 1 to September 30. The Ministry of Environment, Conservation and Parks commented on the extension of the Site-Specific Standards for the integrated iron and steelmaking sector, including Stelco Lake Erie Works. A link to the EBR posting will be sent to the committee.

Pig Caster and Road Dust Management

Sean gave the committee an update on Lake Erie Works' new regenerative sweeper truck, which is used to control in-plant road dust year-round. Sean also provided details on Stelco's upcoming new Pig Casting facility. Specifics were given on the new baghouse which will serve the new facilities as well as the existing kish building to control emissions from the operation. The committee had no concerns and was supportive of the project.
