Review and Approval of Agenda

The committee accepted the agenda as presented.

Coke Battery Performance - Q1 2023

Katie provided a summary of the results of the daily and 30-day rolling average results for the Method 303 environmental audits. The coke battery is in compliance with the 30-day rolling average limits.

Charlene mentioned that she conducted an audit at the coke battery in March. And her results basically compare with those reported by Stelco.

Additional Updates

Stelco provided a summary of additional feedback received from neighbours in Q1 2023 and steps taken to resolve concerns that were raised.

Community Feedback

Stu expressed an interest in an in-person meeting. In addition, he expressed an interest in a tour of the LEW facility. Stelco indicated original plans to keep the meetings in this virtual format; will take both of his comments back internally for future considerations.

Stu also expressed concerns about shoreline erosion near his property, as well as conditions of a nearby unoccupied cottage. Katie indicated that both concerns will be shared with appropriate departments at Stelco.

Adjournment

The next meeting is scheduled for August 3, 2023.
