Review and Approval of Agenda

The committee accepted the agenda as presented.

Coke Battery Performance - Q2 2023

Katie provided a summary of the results of the daily and 30-day rolling average results for the Method 303 environmental audits. The coke battery is in compliance with the 30-day rolling average limits.

Ministry of Environment, Conservation and Parks (MECP) representatives had no comments to share.

Additional Updates

Stelco provided a summary of additional feedback received from neighbours in Q2 2023.

Katie also provided an update on an application to amend an existing air environmental compliance approval to support a hydrogen production pilot plant at Lake Erie Works. This project seeks to utilize by-product gases generated on-site to produce hydrogen gas. This pilot would have negligible air emissions. A link to the posting on the provincial Environmental Registry is included in the presentation.

Community Feedback

Nancy expressed an interest in the tree planting work at Lake Erie Works. Stelco to provide updates at an upcoming meeting.

Adjournment
