Welcome

Review and Approval of Agenda

The committee accepted them as presented. The committee also accepted the draft meeting notes of the previous meeting.

Coke Battery Performance

Katie provided a summary of the performance of the Hamilton Works coke battery operations for Q2 2024 based on the Method 303 environmental audits conducted on a regular basis. Coke battery audit results demonstrated compliance with all 2024 limits, two operational adjustments were conducted for daily thresholds.

Stephen Burt from the Ministry of Environment, Conservation and Parks (MECP) commented on being happy to see Stelco's compliance continue as compliance is their objective. Stephen also shared with the CLC that Jordan will be the Environmental Officer for Stelco Hamilton Works, moving forward.

Jordan is continuing to become more familiar with the site and has been reviewing the various reports that are received regularly. He has spoken with Adrienne & Tyler regarding audits and hopes to be back in the facility reviewing coke performance soon.

Community Comments

There were no community comments/feedback.

One question regarding the recent news of Stelco's potential sale to Cleveland Cliffs was asked however, Stelco representatives indicated that they currently have no information to provide beyond what has been shared publicly by the parties.
